/serverless/ DAYS

Amsterdam
sponsorship prospectus

Conference

29th March 2019, Pakhuis de Zwijger, Amsterdam

ServerlessDays is a community-focused, single track, one-day event that moves away from the hype and focuses on the reality of serverless based solutions.
And for the first time, ServerlessDays is taking place in Amsterdam!

Attendees

We expect our attendees to fit into one of two categories:

1. Developers who are curious by nature, excited to explore new technologies and ways of doing things. The type of developer we see at serverless events works outside of their comfort zone and is often key to successfully introducing new technologies into an organisation.

2. Business stakeholders looking for new solutions to unsolved problems. As technology provides a business advantage, we see product managers, programme directors, and CTOs attending, looking for something that can help drive their business forward.

The venue

Pakhuis de Zwijger is experienced with hosting tech conferences and can fit up to 300 people comfortably. It also provides a state-of-the-art AV system and catering, as well as a beautiful view of Amsterdam.
